OTHER DETAILS

Boat Category	Power
Material	Fiberglass

Pure adrenaline-fuelled excitement! While the FZR takes solo sports riding to fresh heights, it also offers luxury and versatility – including a sport-bolstered seat – making it a very capable, super-fast cruiser for two. The combination of lightweight NanoXcel® hull and the new SVHO engine means the FZR is the ultimate sports machine. A double-digit power boost from the new engine is matched with a new 160mm, 8 vane pump, new sponsons, a new ride plate and new top-loader intake grate that together help the FZR stay glued to the water during high speed turns. The unique telescopic steering adjustment means you can switch effortlessly between a lean-forward riding position and a stand-up style.

- Brand new from factory, un-used

DIMENSIONS

Length: 3,37 m
